## PRESS STATEMENT/ SIARAN AKHBAR

(FOR IMMEDIATE RELEASE)

### EI POWER WINS RM90.1 MILLION FUEL SYSTEM SUBCONTRACT FOR DATA CENTRE IN JOHOR

**Kuala Lumpur, 18 June 2026** – Power engineering solutions provider, EI Power Berhad (“EIP” or the “Company”) (亿埃电能), through its wholly-owned subsidiary, EI Power Technologies Sdn Bhd, has accepted a Works Subcontract Agreement (“WSA”) valued at RM90.1 million for a Data Centre in Johor, Malaysia.

The WSA was awarded by a main contractor principally involved in engineering, construction and investment holding. In accordance with the confidentiality terms of the WSA, the identity of the main contractor is not disclosed.

The scope covers the complete Fuel System Package for the Data Centre in Johor, encompassing supply, delivery, installation, testing and commissioning. Works commenced upon acceptance of the WSA, with completion scheduled in September 2027.

Following this award, EIP’s unbilled order book has increased to RM222.5 million. This contract adds meaningfully to EIP’s revenue pipeline and is expected to contribute positively to the Group’s earnings over the duration of the project.

**Executive Director cum Chief Executive Officer of EIP, Ir. Albert Chang Wan Siong** (曾运祥先生) commented, “This award affirms that our capabilities in mission critical power engineering are being recognised at the highest level of the industry. Coming just weeks after our listing, it reflects the kind of growth trajectory we set out to deliver for our shareholders.”

“Data centres remain one of the most exciting and structurally supported growth segments in Malaysia. This contract is a clear reflection of the opportunities available to us, and we intend to build on this momentum to win further contracts in data centres,

renewable energy, and other infrastructure segments that are shaping Malaysia's growth story," he concluded.

EIP was listed on the ACE Market of Bursa Malaysia Securities Berhad on 21 May 2026, raising RM62.2 million in proceeds to fund operational expansion, including a new headquarters, a branch office in Johor, and its foray into Thailand. The Group serves a broad range of industries including data centres, commercial, industrial and residential developments, as well as solar farms.
